

# Our promise

We promise that we are committed to you,  
our local community, let's see what we can do

We promise to always put your first  
To support your local needs through the worst.  
We promise to source the products you need,  
Wherever we can, to help you feed...

Yourselves, the vulnerable and those at home,  
We are here, at the end of the phone.

Our store is open, and our shelves remain stocked,  
But please be mindful, come shop but don't flock  
Thank you for supporting your local store,  
Let's work together, to now achieve more.

Be happy and kind and think of others,  
Our friends, our neighbours, our fathers, our mothers.

If you have ideas then let us know,  
Of how we can help, so our community flows.

**Sending love and happiness in these testing times,  
Your local convenience store team  
At the heart of the community.**
